# OLYMPUS LOCK, INC.

*The cabinet lock innovators.*

## EXPERIENCE

Olympus lock has over 20 years of experience designing and manufacturing easily rekeyable pin tumbler, interchangeable core and engineered cabinet lock bodies for third party cylinders. We offer a wide selection of keyways and cabinet lock solutions for commercial and institutional facilities. Our design philosophy is to create locks that provide long-term benefits to the facility through increased efficiency and easy maintenance.

## APPLICATIONS

Olympus cabinet locks are used in a variety of cabinet and casework applications including: K-12 public schools, colleges and universities, correctional facilities, medical offices, hospitals, casinos, retail cash drawers, lockers, kiosks, retail showcases, airline ticket counters, museums, hotels and motels, amusement parks, theaters, restaurants, country clubs, libraries, airports, police stations, fire stations, and churches.

## SERVICE

Our delivery is the fastest in the industry. We have an extensive inventory of off-the-shelf masterkeyed locks and can ship most custom keyed orders within 1-5 business days. We manage and save all custom keying records for future reference. We manage the key records so you don't have to.

## SOLUTIONS

Olympus Lock specializes in pin-tumbler cabinet locks for the institutional and retail marketplace. When large numbers of locks will be installed within a facility, pin tumbler locks are preferred because they are more secure and allow the complex master keying and sub-master keying required in larger institutional settings such as schools, banks and hospitals. We provide a wide range of cabinet lock options for the cost conscious, yet security minded user. Beyond that, we can supply cabinet locks keyed to match your door hardware allowing for "one-key" simplification.

## INNOVATION

We hold numerous U.S. and Canadian patents proving our commitment to provide innovative solutions for your cabinet lock needs. It has always been the intent of Olympus to provide cabinet locks that are easy to install, use, and service. Each product is carefully designed, engineered and manufactured to exacting standards. We offer a wide range of accessories to make the installation, use, and service of our products as easy as possible.
