The cabinet lock innovators.

FOR IMMEDIATE RELEASE

LYNNWOOD, WA — Olympus® Lock, Inc. announces the newest member of our large pin family of products: the 754 and 854 door and drawer locks for Sargent original cylinders. The 754 and 854 locks chamber Sargent original deadbolt cylinder #13-3457. The 754/854 cabinet locks come standard with 1-3/8" barrel length. The 754 is for a cabinet door application and the 854 is for a drawer application. Both door and drawer locks are non-handed.

The 754 and 854 locks ship standard with a matching notched strike. Optional internal or external trim spacers are available for a flush fit on 7/8" material thickness and to provide additional reinforcement. The 754 and 854 cabinet locks are in stock and available for purchase now.

Olympus Lock is a manufacturer of easily rekeyable, pin tumbler cabinet locks and interchangeable core cabinet lock bodies for a broad range of commercial applications. Our mission is to create pin tumbler cabinet locks and accessories of unparalleled innovation, quality, keyway compatibility, and value in a manner that sets a new industry standard for excellence. *Olympus Lock—we make the changes that change the industry.* For more information contact us toll free at 800-525-0954 or visit our website at www.olympus-lock.com.
