## OLYMPUS LOCK ANNOUNCES NEW PADLOCKABLE CAM LOCK

LYNNWOOD, WA — Olympus® Lock, Inc. announces the new Olympus DCP500 Series padlockable cam lock. This product adds to our existing DCP padlockable cam lock line and provides the additional benefit of an integrated finger pull. The new DCP500 fits in a standard  $\frac{3}{4}$ " diameter hole and comes standard with a pronged wood washer and 1-1/4" straight cam. Additional straight and offset cams are available to fit almost any application. The DCP and DCP500 series padlockable cam locks can be used in door or drawer applications and accept most standard padlocks with a shackle diameter of  $\frac{3}{8}$ " (10mm) or less.

The DCP Series padlockable cam locks from Olympus Lock provide the versatility of a cam lock with the convenience of a padlock. This is the perfect product for school gym lockers, music lockers, health club lockers, hospital lockers, employee lockers or any installation where users provide their own padlock. The new DCP500 is available in US26 (polished chrome) or US26D (satin chrome) finish.

Olympus Lock is a manufacturer of easily rekeyable, pin tumbler cabinet locks and interchangeable core cabinet lock bodies for a broad range of institutional applications. Our mission is to create pin tumbler cabinet locks and accessories of unparalleled innovation, quality, keyway compatibility, and value in a manner which sets a new industry standard for excellence. *Olympus Lock—we make the changes that change the industry.* For more information contact us toll free at 800-525-0954.
