**OLYMPUS LOCK ANNOUNCES NON-FERROUS (NON-MAGNETIC)
CABINET DOOR AND DRAWER LOCKS FOR MEDICAL MRI
APPLICATIONS**

LYNNWOOD, WA (April 2, 2014) — Olympus® Lock, Inc. announces the addition of our MRI line of cabinet door and drawer locks for use in Magnetic Resonance Imaging (MRI) areas. The new MRI locks are available on either our N Series 100M and 200M locks or R Series 500M and 600M locks. Features include all non-magnetic materials and components and the same easy rekeyability as our standard series locks. MRI locks are available in US26D finish and can be ordered on our stock keyed alike numbers, keyed different or custom keyed to your specifications. Optional key-retaining function is also available.

Olympus Lock is a manufacturer of easily rekeyable, pin tumbler cabinet locks and interchangeable core cabinet lock bodies for a broad range of commercial applications. Our mission is to create pin tumbler cabinet locks and accessories of unparalleled innovation, quality, keyway compatibility, and value in a manner which sets a new industry standard for excellence. Olympus Lock—The cabinet lock innovators. For more information visit our website at www.olympus-lock.com or contact us toll free at 800-525-0954.
