FOR IMMEDIATE RELEASE

**100DR / 500DR
with extended bolt**

OLYMPUS LOCK ANNOUNCES EXTENDED BOLT FOR 100DR AND 500DR DEADBOLT CABINET DOOR LOCKS

LYNNWOOD, WA (April 2, 2014) — Olympus® Lock, Inc. announces the addition of an extended bolt for our popular N Series 100DR and R Series 500DR cabinet door locks. The extended bolt provides an additional 3/4" to the bolt length when in the locked position. This allows the lock to be located farther from the edge of the cabinet door while still providing enough bolt material to engage the strike. Extended bolts are available separately (item number 15-1-35) or factory installed in the lock.

Olympus Lock is a manufacturer of easily rekeyable, pin tumbler cabinet locks and interchangeable core cabinet lock bodies for a broad range of commercial applications. Our mission is to create pin tumbler cabinet locks and accessories of unparalleled innovation, quality, keyway compatibility, and value in a manner which sets a new industry standard for excellence. *Olympus Lock—The cabinet lock innovators.* For more information visit our website at www.olympus-lock.com or contact us toll free at 800-525-0954.
