Replacement Kit  
includes: solid brass  
cylinder and 2 keys**

## OLYMPUS LOCK ANNOUNCES NEW T-KNOB CYLINDER REPLACEMENT KIT

LYNNWOOD, WA — Olympus Lock, Inc. announces the new Olympus T54C T-Knob Cylinder Replacement Kit for CompX/National T-Knob models C8154 and C8155. Our Replacement Cylinder Kit is intended to replace failing cylinders in the field without having to replace the entire handle. The T54C cylinder is constructed out of solid brass for increased durability and finished in US26D.

The T54C can be keyed to match your existing 4-pin or 5-pin systems. The cylinder kit ships uncombined with two ringed 4-pin keyblanks, 5-pin blanks are available separately. The T54C can easily be keyed to match your other existing T-knob locks, CompX/National pin-tumbler T-bolt locks or Olympus Lock's easily rekeyable T37 T-bolt locks.

Key-retaining or non-key-retaining function is not impacted by replacement of the original cylinder with the new T54C cylinder—this functionality is determined by the configuration of the T-knob lock itself and not the cylinder. The T54C Cylinder Replacement Kit is in stock and available for immediate shipment.

Olympus Lock is a manufacturer of easily rekeyable, pin tumbler cabinet locks and interchangeable core cabinet lock bodies for a broad range of institutional applications. Our mission is to create pin tumbler cabinet locks and accessories of unparalleled innovation, quality, keyway compatibility, and value in a manner which sets a new industry standard for excellence. *Olympus Lock—The cabinet lock innovators.* See us on the web at [www.olympus-lock.com](http://www.olympus-lock.com) or contact us toll free at 800-525-0954.
